

uPVC Folding Sliding Doors

West-End Windows Aluminium folding sliding door sets new standards. Now, our new uPVC option will open new markets.

Folding sliding doors represent an exciting opportunity for open plan living or the creation of space and light, whether it's a commercial application (e.g. car show room), restaurant or bar, or domestic use - from a lean-to conservatory to a grand swimming pool enclosure.

Modern technology and the latest hardware ensure these doors are high performance and designed to last. West-End Windows new uPVC folding door is ideal to match existing uPVC frames or as a standalone, premium quality doorway.
